

MINING NEWS AND STOCKS

COPPER MAKES POOR SHOWING

Industry Was Below Average During First Six Months of 1914

The unsatisfactory condition of the copper industry during the half year ended July 1, culminating in the statement of the Copper Producers' association showing an increase in domestic stocks during July of 21,568,222 pounds, is further emphasized by the following comparison.

Against the total refinery output for the period, 832,127,652 pounds, there were total deliveries of 829,665,856 pounds, an excess of production amounting to 2,461,796 pounds. During the same period last year deliveries exceeded production by 35,497,774 pounds.

Production Larger.
While production for the first six months of 1914 showed an increase of 25,942,824 pounds, or 3.2 per cent over the corresponding period of last year, domestic deliveries showed a drop of 98,548,685 pounds, or 23 per cent. On the other hand, foreign deliveries increased from 432,500,289 pounds to 459,822,728 pounds, a gain of 13 per cent. In other words, 79 per cent of the country's production was consumed at home and 21 per cent abroad.

Compared with 1913, domestic deliveries for the six months of the current year show a loss of 642,291 pounds, while foreign deliveries gained 126,852,179 pounds.

BROKERS' GOSSIP

Greene-Cananea.
Negotiations are in progress between the Greene-Cananea and the Mexican authorities for the reopening of the mine.

Shattuck-Arizona.
On the present output at the rate of 15,000,000 pounds per annum and a 14-cent copper market, Shattuck-Arizona should be able to earn \$2 a share, an amount \$2 paid on dividends. Production in the last six months was 17,000 pounds larger than a year ago.

Utah Consolidated.
Mark L. Requa has recently been inspecting some mining properties in the neighborhood of Elko, Nevada, in company with R. H. Channing of the Utah Consolidated. Mr. Requa is the mining engineer who laid the plans for development of the Nevada Consolidated properties in Elko and had charge of the construction of the Nevada Northern Railroad. After returning here from the trip Mr. Requa intimated that the properties they saw were still in the prospective stage.

It has been understood here for some time that Mr. Channing was in the market for a good mining proposition and that he found the property that suited him. He would pay a good price, as he desired to get something for the Utah Consolidated Co. The mine at Hingham keeps up a steady production and there appears to be a satisfactory balance in sight, but the company has frequently been reported to be in the market for a mine when in time could replace the same famous business.

North Butte.
North Butte's program for the development of new ground recently acquired apparently has been halted, and the company has been unable to secure more ground, negotiations for which have been in progress for some time.

North Butte has the eye upon the Pacific coast, a tract lying in the extreme eastern part of the Butte district and the chief asset of the Butte Mine Exploration company, a concern which has given up the breath of life. With the exception of a Newark, N. J., capitalist, who advanced money to the exploration company and then took a lien on the Pacific claim, all interested are willing to sell out to the North Butte. In order to secure complete title to the Pacific claim, North Butte has purchased an option on the property which was given to several Butte men by the Newark capitalist.

It is possible, however, a litigation will result, which it is said North Butte is anxious to avoid. The Pacific claim is one of the property in the eastern portion of the claim that has yet developed. North Butte is negotiating for several more pieces of property in order to round out and make complete its block of recently acquired ground.

LONDON TEACHERS TO PANAMA.

Fifty Pedagogues To Make Study of the Isthmian Waterway.

London, July 20.—Fifty teachers of the London public schools sailed today for a visit of inspection to the Great Panama canal. The excursion is the first that has ever been sent out of England with the Isthmian waterway as the objective point. The trip was organized by the London Teachers' association. The cost for each member is \$125, and though there are naturally many head masters and head mistresses in the party, the list is representative of all parts of London, and of all grades of teachers. The London school board has granted the excursionists leave of absence with pay until August 20, which is the date fixed for the return to England.

Buffalo vacation schools are attended by nearly 8,000 pupils.

CURB STOCKS.

J. A. Minnear & Co. say today:—

The markets were reactionary today and the closing was at lowest prices of the day. There was very little activity and the small amount of liquidation which is going on all through the session caused markets to look weaker. Mohawk announced a \$1 dividend this morning payable August 15. This is the first dividend for a year and compares with \$2 paid last July. C. & A. has been strong the past few days and has been well bought.

ADDITIONAL LOCAL SEND PETITION TO NAVAL BOARD

Calumet Is in Line to Organize Division of Reserve

Petitions bearing the signatures of fifty-three prospective members of a naval reserve division which it is planned to organize in Calumet will be dispatched tomorrow to Adjutant General Roy Vandervoort at Lansing, and to other members of the military and naval boards. Supporting these petitions will be letters from dozens of prominent copper country business men, who send assurances of their interest in the proposed naval reserve division and request that Calumet be accepted as the second division of the Second Battalion, replacing the Escanaba division which was mustered out. Every effort will be made to induce the military authorities to admit the Calumet divisions on this basis.

The petitions themselves are an indication of the interest taken in the naval reserve division here, the fifty-three signatures reported today having been secured in a partial canvass of the young men of Calumet in just three days.

The petitions will remain open for new signatures up to the time the proposed division is mustered in, if the sanction of the state military and naval authorities can be secured. No difficulty is anticipated in securing a division which will compare in strength with the best in the state with a membership of 75 or 80 able bodied and experienced officers.

LATE MRS. W. H. GRIGGS.

Well Known Copper Country Woman Passes Away This Morning.
After an illness of three months' duration with diabetes, Mrs. William H. Griggs, aged 50 years, of North Tamarack, passed away at her home this morning. The late Mrs. Griggs was born in Copper Falls in 1864 and resided in the copper country almost continuously since that time. She came to Calumet when 18 years of age.

Besides her husband, one son, Harold of Hibbing, Minn., who arrived here several days ago, called here because of his mother's serious illness, survives.

Funeral services will be held Wednesday afternoon from the family residence and will be in charge of Rev. W. H. Colquhoun. Interment will be in Lake View cemetery.

Late Mrs. Catherine Guy.
Mrs. Catherine Guy, one of the pioneer residents of the copper country, and a resident of Calumet and vicinity for the past thirty years, passed away at her home in Tamarack Sunday evening. Mrs. Guy suffered a paralytic stroke a few days ago, and although hopes were at first entertained for her recovery, it was found impossible to prolong her life.

The late Mrs. Guy was 57 years of age and was well known in this vicinity. She is survived by four sons, Louis of Tamarack, Jr., Steve, Joseph and Frank at home and by two daughters, Margaret of Grafton, Ohio, and Miss Mattie, who resides at home.

The funeral services will be held Wednesday morning at 9 o'clock from St. Anthony's Polish church.

HONEYMOON IN IRELAND.

Details Concerning Flannery-Dolan Nuptials Received Here.
A communication just received here from Ireland gives the details concerning the marriage of Miss Elsie Flannery, formerly of Houghton to James L. Dolan, a carrier of the Calumet postoffice force, which was solemnized on July 8, at Nenagh, Tipperary county, as previously mentioned. The marriage occurred at 6:30 a. m. at the church of St. Mary of the Rosary, nuptial mass being celebrated by Rev. Father Joseph Devane of Brooklyn, N. Y., a childhood friend of the bride, who is at present visiting his old home in Nenagh. He was assisted by Rev. Fr. O'Meara, curate of St. Mary's church. The attendants were Miss Anna C. Flannery and Michael J. Flannery, sister and brother of the bride, respectively.

Mr. and Mrs. Dolan will spend their honeymoon in the south of Ireland and near the Lakes of Killarney. They will leave about August 1 for Calumet, where they will make their future home.

ENTENZA IS IN TOWN.

Attorney Anthony Entenza of Detroit, whose candidacy for the Democratic nomination for Congress from the thirteenth district recently was announced, arrived in Calumet this morning to join Mrs. Entenza, who has been visiting with her mother, Mrs. Christina Dymock for some time past.

DATE FOR OUTING SET.

The committee in charge of plans for the annual outing of the C. & H. mechanical forces, has announced that the picnic will be held on August 3 at the Freda Park of the Copper Range road. Special accommodations will be provided. The C. & H. band will make the trip to Freda with the excursionists.

LOCAL BREVITIES.

Mr. and Mrs. B. M. Kerr and Miss Jean Murray will arrive home this week from a lake trip.

Russell Andrews has gone to Chicago and Detroit to visit.

William Griggs of Tamarack, who recently suffered a broken leg, is improving rapidly.

Mr. and Mrs. Barker Brown of Detroit, who have been spending their honeymoon here, have returned to their home.

Mrs. Al Freeman and daughter of Chicago are guests of friends and relatives here.

David Harris has left for Great Falls, Minn., where he is to be married shortly.

Dr. J. Stefanie has arrived home from Milwaukee.

Mrs. Roy Ward has returned to home in Minneapolis, after visiting with local friends and relatives. She was accompanied by Miss Genevieve Ward.

Mr. and Mrs. Francis Crocker are expected home today from the Sons of St. George reunion in Indianapolis.

Joseph P. Storch of Detroit, in visiting with friends and relatives here.

Mrs. Fred Feeder and daughter, Miss Mabel, have gone to Cornwall, Kan., to spend the remainder of the summer.

Mr. and Mrs. George Daigle are home from a two weeks vacation spent in Muskegon.

CONGRESSMEN DIRECTING CAMPAIGNS FROM CAPITAL

Washington, July 20.—That members of congress who are on the job in Washington are nevertheless doing a considerable campaigning is shown by the great increase in the volume of franked speeches the government material which is being sent out. The big rush started about the first of July and has continued ever since. The largest output of the Washington postoffice to date showed 219,000 short speeches, 38,000 long speeches, and 67,000 bulletins, all in separate envelopes, and 214 sacks of government documents. The force of clerks in the postoffice has been rushed to the limit and all on account of campaign material which members of congress are sending out at government expense.

MINE GUARDS SLAIN IN COLD BLOOD WITNESS SAYS

Fort Smith, Ark., July 20.—The bodies of John Baskin and Clarence Sylesberry, mine guards, were found Saturday in the woods near the Prairie Creek mine. A coroner's inquest was held. The men participated in the battle with strikers Friday at the Bache-Dennan mines.

According to the affidavit of L. C. Thomas, himself a mine guard and participant in the battle, he and six employees left the mine while the fighting was at its height and sought to break through the attack. They were captured, taken to a log house in the woods and held for two hours until two state officers arrived. Then it was one of the union men shot Baskin and as he fell to the ground, fired a shot at Sylesberry and sent a second bullet into his body as he fell.

ENGLISH AVIATOR'S BODY FOUND OFF COAST.

Boulogne, July 20.—Some fishermen here found a body which is believed to be that of Gustav Hamel, the English aviator, who was lost during a flight from Villacoublay, France, to the Hendon aerodrome on May 21. The body was found off Hardelet, on the French coast, the last place at which Hamel stopped before he started to fly across the British channel. It was in such condition that it could not be recognized, but the fishermen obtained a map from one of the pockets of the coat, which it is hoped will lead to the identification of the body.

CAN SEE NO RELIEF FOR U. S. BEEF EATERS

Imports From Argentine Mere Drop in the Bucket

Washington, July 20.—"I can see no relief in sight as far as the high cost of beef is concerned."

This was the statement of Dr. A. D. Melvin, chief of the bureau of animal industry of the department of agriculture. He is the acknowledged "beef expert" of all government officials. He heads the department's meat cost investigating board and recently spent months in Argentina investigating production methods, cost and availability of Argentine beef for American consumers.

"The high prices are undoubtedly caused by the scarcity of beef cattle in the United States, and under conditions such as obtain at present, there is little prospect of increasing the supply," said Dr. Melvin.

Small Importations.
A certain amount of beef comes from the Argentine republic; last month about 14,000,000 pounds. When you stop to consider that in addition to what the United States supplies or should supply, it is a very large amount. And yet it has little effect upon the sale price.

Certain officials of the department of agriculture are inclined to disagree with A. H. Benjamin, the New York commission merchant, who wrote letters to the secretary of agriculture and the interstate commerce commission complaining that the railroad companies refuse to furnish refrigerated transportation for beef shipped independently from South American ports.

Talks of Situation.
A prominent department official said today:

"I do not believe that if any such amount of beef as Benjamin states may be shipped in, the railroad companies would refuse to handle it."

"There has been a meat war in Argentina for some months, waged between the American and English interests, the big packing houses. Undoubtedly meat has been sold in England for sometime below cost, but it is a result of the determined attempt to gain control of the situation in South America."

Paine, Webber & Co.

BOSTON, MASS.

Boston, Mass., July 20.—The market is still waiting for rate decision and there were no minor fluctuations in the list today. The local coppers were dull and showed only fractional changes with exception of Mohawk, which issue was the strongest. Union Pacific sold ex dividend amounting to about 30 1/2 and looks cheap around 127 for an 8 per cent stock. The prospects are for the rate decision before the end of the week. Market looks good.
